# FOUNDER CHAIRMAN AND MANAGING DIRECTOR'S INSIGHT

Dear Shareholders,

It is indeed my proud privilege to report to you SISCOL's first annual report. The year 2017-18 was a short year for our Company as we were founded only in Oct 2017. The Company promoters - veterans of Indian Industry, finished all startup formalities in record short time and implemented all business processes critical to launch of a start up enterprise. A highly competent Management Team with proven credentials was quickly put in place which started full scale activity from early February 2018.

## Accelerating India's infra development

Given India's need for speedy development of infrastructure including Rail & Road Bridges, Flyovers, Airports, Rail & Metro stations, Parking lots and large civil buildings covering hotels, hospitals, convention centers and large housing schemes, adoption of steel based construction can cut down the construction time by 40-50%. For steel buildings, a bulk of construction is done in factories and site activities are limited to mere assembly. Steel solutions are more reliable and safe for India as a major part of its landmass is seismic activity prone. Further, the residual value of steel buildings remains intact or improves over time while for RCC buildings in the event of demolition, is virtually nil.

## Increasing advantage

With the advent of high grade steels, the super structure of steel buildings are becoming lighter in weight and associated civil foundations are also smaller. Steel buildings also lend themselves to modern architectural designs as they are more adaptable to varying geometries and are easier to execute.

## Growing demand Vs supply

From all available indications, the Indian market is poised for a major growth and already in FY17-18, the market grew by about 20%. The downturn in infrastructure activity during 2013-16 saw several small and medium fabrication units close down with the aggregate production capacity declining by

nearly 20%. And today with the upsurge in demand, the net supply of structural steel is less than the total demand. Most of the end customers desire end to end solutions for steel based constructions as their own knowledge of steel application is still limited. And it is precisely here, SISCOL with its unique capability has an exceptional business opportunity.

## Building Capability & Capacity

SISCOL in order to make a head start with their business acquired an existing fabrication unit in the Steel City of Bhilai, thus gaining advantage of low inbound logistic cost. Soon after acquisition of Shivam Hi-Tech unit, SISCOL launched a major effort for the speedy modernization and upgradation of its capacity. The new plant will have high degree of automation in both production and interfacing business processes. State-Of -Art business systems and digital practices have been implemented across the organization.

Comprehensive SAP based ERP, Strumis – a Production/ inventory management system, Bar coding on material and GPS based logistics are few examples of digital systems put in place from the

very start. Customer portals are set up to ensure seamless connectivity and constant sharing of relevant information with clients. Company's Bhilai unit, once completed by June, 18 will be capable of delivering 2500 MT of fabricated structures every month.

#### **Business alliances**

SISCOL recognizing the importance of collaborating with organisations with complementary strengths have signed MOUs of cooperation with leading national & international organisations like M/s Yongnam of Singapore, M/s Powermech – a leading erection company of India and M/s Tiger Steel of India. These cooperations would greatly strengthen SISCOL ability to reach various market segments both geographically and technically complex solutions.

#### **Market breakthroughs**

SISCOL has made significant inroads into the market. During the first six months of the previous year, all major customers have approved us as vendor/supplier and we have already secured orders for over 3000 MT of structures for diverse applications. The completion of upgraded plant has got delayed by about two months due to inordinately long time taken in the acquisition of the unit. But the Company is making all out endeavour to catch up during the next financial year.

#### **Ushering a new era of complete steel solutions**

SISCOL entry into the Indian market is well timed and it becomes the first local Company to offer "End-to-end" steel based infrastructural

“Steel buildings also lend themselves to modern architectural designs as they are more adaptable to varying geometries and are easier to execute.”

solutions covering the full value chain from design, engineering, manufacturing, supply and installation of steel based constructions. This new value proposition would go a long way to promote the use of structural steel in preference to conventional R.C.C based construction solution. Structural steel is already being used widely in developed countries where its share is between 40–60% of the total construction markets. The market for structural steel in U.S. alone is 10 million Tons /year compared to India's 1.0 Million Tons.

### **Quality Certification**

The Company is pleased to announce that it has received ISO certifications 9001, 14001, 18001, 27001 and 50000 which confirms its operational readiness using sound systems and processes.

### **SISCOL – An investment grade company**

Our Company is among the few start-ups which after comprehensive scrutiny has been given “Investment Grade” by the Credit Rating agency.

### **Inspiring support from all**

The Management of the Company acknowledges with gratitude the unstinted moral and financial support given by the shareholders and Directors of the Company.

The Company Management also wishes to thank the various government agencies, employees and service providers for their relentless effort and encouragement for enabling an early start of the business operations.

The overall business outlook remains quite positive and the Management is optimistic about delivering a good result in FY 2018-19.

Thanking our all stakeholders

Your company has also entered into a Shareholders Agreement in January 2018 and subsequently, in February 2018, the company has been funded by way of Equity of Rs. 30 Crore and Rs. 7 Crore by way of shareholders Loan. Term Loan will be raised as and when required in line with project progress and its requirement.

## Indian Accounting Standards (Ind-AS)

The Ministry of Corporate Affairs (MCA) has vide its notification dated February 16, 2015, notified the applicability of Indian Accounting Standards ("Ind AS") to be mandatory on listed companies and certain class of companies. It is expected that these standards, will be made mandatory, in a phased manner, to other Companies.

In order to maintain the highest standards of Accounting Practices your Company has adopted Ind AS for the Accounting period ended on March 31, 2018 and accordingly these financial results have been prepared in accordance with the recognition and measurement principles stated therein.

## **Review of business operations and future prospects**

Considering the locational advantage and easy access to Raw Material (steel plate) manufactures and other resources in Chhattisgarh, your company has signed a MOU, in December 2017 to acquire, in phased manner, two Fabrication Units in Industrial Area located in Bhilai. Acquisition of one unit has been completed in March 2018 and another unit is expected to be completed before December 2018.

The Company has signed a technical support agreement with M/s Yongnam, a company based in Singapore with 40 years of experience in steel-based solutions for Infra sector and having been associated with Iconic projects like Mumbai airport/Delhi Airport and Marina Bay, Garden by Bay in Singapore.

Refurbication of lay out of the acquired plant which is under progress with technical support from the technical partner M/s Yongnam and being equipped with state of art modern and automated imported/ Indigenous machineries to enhance capability and to increase productivity of the plant and it is expected to be completed in May 2018.

Your Company's head office has already started functioning in Delhi. Business Development and Marketing function is also functioning from this Office. An Engineering Centre has been established in Bangalore to support Company's day to day operations.

During the year your Company has recruited highly experienced and accomplished Management Team for Production, Quality, Design and Engineering, Marketing and other support functions HR, Supply Management, Finance etc.

Involvement of Promoter Directors in executive capacity in Strategy, Business Development, Marketing, Financial Management with their extensive experience in the respective field both at national level and international level will help the company to emerge as a formidable player and largest fabricator in India next few years to provide Steel based solutions for Infra sector in India and abroad with International level Project Management and Fabrication quality.

Your directors are hopeful for better results as regards to future prospects and profitability of the Company.

## **Demand scenario/Business Outlook for SISCOL**

SISCOL have entered into business at a stage when the demand for fabricated structures has started to rise in a major way. Government of India's focus on the accelerated growth of infrastructure and increasing emphasis on use of steel in civil construction has resulted in rapid growth of demand. The present demand for all fabricated structures is about a million tons and is expected to grow @ 15-20% for the next 5 years. Need for speedy construction of roads, bridges, flyovers, hi-rise commercial districts, parking lots and airports are major among the segments driving the demand for steel based buildings and general infrastructure. The availability of suppliers offering complete construction solutions would also spur the demand for structural steel. The experience of major countries like US, China, Japan and newly developed countries further confirm the global trend to prefer steel over RCC construction. Steel structure based buildings are also more suited for seismic zone countries like India which offer more stability and endurance against seismic impacts

Currently, the total demand of steel structures in India at 1.2 Million Tons is in excess of the present supply capacity of about 0.9 million. The current deficit in supply has forced many construction companies to set up their own low quality fabrication facilities at the project sites. SISCOL's value proposition has received overwhelming support from all major customers who are waiting for us to commission our new upgraded facility at the earliest and start executing their orders. While factory completion is under way, the Company Management has taken proactive steps to secure vendor approval from major customers like NTPC, Railways (RDSO), BHEL etc and are hopeful to receive the same before the end of Q1.

SISCOL to make a more customer focussed strategy have set up Client Industry based verticals which include one dedicated to Airports, second one for Bridges, ROBs/Flyover girders and the third one for Hi rise Commercial buildings/ Parking lots/Shopping malls/Hotels & Sports Stadiums. Such an approach would enable SISCOL to gain better understanding of client needs and address them more effectively.

### Report on the Standalone Ind-AS Financial Statements

We have audited the accompanying standalone IndAS financial statements of **STEEL INFRA SOLUTIONS PRIVATE LIMITED**, which comprise the balance sheet as at 31 March 2018, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the period then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as “standalone Ind AS financial statements”).

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31 March, 2018, and its financial performance

including other comprehensive income, its cash flows and the changes in equity for the period ended on that date.

## Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **STEEL INFRA SOLUTIONS PRIVATE LIMITED** as of 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the period ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention

or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
